

José Baptista is an Assistant Professor with Habilitation at the University of Trás-os-Montes e Alto Douro (UTAD), Portugal, and a researcher at INESC TEC. He received his degree in Electrical Engineering from UTAD in 1991, an M.Sc. in Power Electronics in 1997, and a Ph.D. in Electrical Engineering in 2007, followed by his Habilitation in 2019. His research interests include power quality, electrical machines, renewable energy systems, smart grids, energy efficiency, and the integration and management of distributed energy resources. He has authored and co-authored numerous scientific publications and supervised several Ph.D. and M.Sc. theses. He is currently Director of the Ph.D. Programme in Electrical and Computer Engineering at UTAD.
